WARRANTY CONDITIONS

8 year warranty on the handling system

S.L.P. snc warrants that Products are free from defects and comply with the technical specifications declared, according to European laws.

The aluminum arms handling mechanism, produced by the company S.L.P. snc di Macchioni A. and Tei R., is guaranteed for 8 years from the invoice date.

Conventional manufacturer's warranty does not include anodizing and/or painting and anything not expressly provided for in this article.

A valid tax document of purchase must be issued by the seller (receipt, invoice or transport document) that identifies the purchased product and / or its delivery.

The system warranty applies to products that are used in the specified installation declared by the Seller. The warranty does not cover improper use.

The warranty does not cover malfunctions caused by incorrect installations, damages caused by natural disasters or vandalism or incorrect applications or improper use of the product.

The seller does not accept responsibility or civil and criminal liability for non authorized modifications or replacements of parts of the product..

The seller will fulfill the warranty obligations by replacing the defective material. It will not be liable for any direct or indirect damages, liability or injuries caused by any failure of performance.

The warranty does not cover late payments by the buyer. All products listed as "non-standard" are NOT guaranteed.
